

CRITICAL INFORMATION SUMMARY

Accord Business Ready nbn™ + Voice plans

Information about the Service

Accord's Unlimited nbn™ plans deliver broadband internet connectivity via nbn Co's fibre networks (FTTP, FTTB, FTTN or HFC) to the Network Boundary Point of your premises. The Unlimited nbn™ service is a consumer grade service, and while able to be used for business use, should not be used for mission critical purposes. The Unlimited nbn™ service is invoiced monthly.

Accord's nbn™ Voice service is a Voice over IP (VoIP) service which allows you to make and receive calls through your Accord broadband service.

Service availability and equipment requirements

The installation address for the service must be in an area serviced by nbn Co's fibre network. Availability of the service can be confirmed at www.accordconnect.com.au or by contacting Accord Customer Service on 1300 017 150 (Monday to Friday, 8am–8pm AEST). The Voice service is only available through your Accord nbn™ broadband service and is not available as a standalone product.

Installation

Standard installation is included. Non-standard installations may incur additional costs. For more details on non-standard installation costs refer to Accord's Standard Form of Agreement at www.accordconnect.com.au.

Equipment required

You must have an nbn™ compatible modem for this service. Accord offers a choice of nbn™ compatible modems for this service. These modems are Wi-Fi enabled and will allow a connection to any wireless devices in your home.

The manufacturer's warranty period begins from the date of purchase and is as follows:

Hardware	Manufacturer warranty period ¹
Netcomm NF18ACV	12 months
TP Link VR500V	36 months
NetComm NF10WV	12 months

You can also choose to supply your own nbn™ compatible modem. Please note that although we endeavour to support as many hardware configurations as possible, we may only be able to provide limited technical support if you supply your own modem.

To use the Voice service, you will need to have your own VoIP compatible handset.

Minimum contract term

Accord's nbn™ fibre service is subject to a 12 month contract term. This is an agreement to supply the service to you at the address supplied by you in your application. If you relocate, Accord may not be able to provide you with the same offer and you may incur relocation and/or cancellation charges.

Information about pricing

There are three speed choices available for Accord's Business Ready nbn™ plans. Payments can be made via credit card or using an Officeworks 30 Day Business Account.

Plan name ²	Monthly cost (including GST)	Minimum total cost for 12 months (including GST)	Data allowance
Accord Business Ready Standard nbn™	\$89.00	\$1068.00	Unlimited
Accord Business Ready Fast nbn™	\$99.00	\$1188.00	Unlimited
Accord Business Ready Ultra Fast nbn™	\$109.00	\$1308.00	Unlimited

Other charges in relation to your nbn™ service are as follows:

Contract type	Setup fee (including GST)	Early termination charge (including GST)
12 months	Nil	\$110.00

1 The Australian Consumer Law protects consumers by giving them certain guarantees when they buy goods and services. These are known as "Consumer Guarantees". For further information, please refer to the [Australian Competition and Consumer Commission website](http://www.accc.gov.au).

2 Regardless of the nbn™ technology type connected at your address, the actual speed of your service will often be slower than the maximum line speed. During peak evening periods of 7pm-10pm you can expect to have typical download speeds of 20.9 Mbps on the Standard service; 43.6 Mbps on the Fast service and 80 Mbps on the Ultra Fast service. Service speeds will vary due to a range of factors including congestion on the nbn™ network, especially during busy periods, type of modem, number of devices connected to the network, source of data, the technology connection to your home and your location.

Business Ready features

Accord's Business Ready nbn™ plans include additional features designed for small businesses.

Important Information about your Voice service:

- You must agree to waive your rights under the Customer Service Guarantee before we will supply you the Voice service.
- This service may not be compatible with your Business Alarm system. Please check with your alarm provider to confirm.
- Emergency calls: This service will not work if there is an interruption to your internet connection. This includes dialling emergency numbers such as 000.
- This service is not suitable for people with life threatening medical conditions that require priority assistance security controls.
- Number porting: Number porting is available and needs to be requested at time of application. This is subject to number portability being available from your existing provider.
- The following cannot be called from this service: Australian Premium Rate Numbers (i.e. 190x), operator assisted numbers, special service numbers and certain high risk international destinations (listed here).

Other information**Full terms**
